On sale at your drug store.

Good for the whole family. Sold at your drug store.

Andy Anton, Thompsonville, Ill., wrote Aug. 31, 1918: "I feel that I should send my testimonial for Dr. Thacher's Liver Medicine, which I have used for twelve years. Before I used it I could not do a whole day's work; because I was so weak in my kidneys, but I am now strong and healthy."

J. M. Sexton, Box 147, Ocala, Fla., wrote Jan. 22, 1919: "I used a bottle of your Dr. Thacher's Liver and Blood Syrup in my family with a four-year-old child that had had kidney trouble, caused by measles. Found it to do more good than all the medicines that I ever got hold of."

GRAMMAR AS IT IS WRIT

Third Man Had Also Had Difficulties He Was Anxious to Get Corrected.

First Sergeant Grizzell of the Spokane recruiting station, vouches for the following incident which occurred when three of the applicants of that station were making application to the director of the United States Marine Corps Institute, Quantico, Va.

Two of the applicants had spelled the word grammar as "grammer," and were busily making corrections when the third applicant came along. He asked:

"What are you changing the word grammar for?"

"Why, we spelled it wrong," answered one of the applicants.

"Give me that rubber," said the third man. "Darned if I ain't spelled it with two m's myself."—Recruiters' Bulletin.

BLAME NOT ENTIRELY HERS

New Maid's Attitude Not Inappropriately Compared With That of Some Politicians.

In a recent political gathering the following story was told apropos of the coming national election:

"Whilever side wins, I'm afraid will act as did the new maid."

"The new maid was entirely make-shift, and the mistress bore with her patiently at first. But on the third day she placed a very unclean dinner plate on the table, and patience broke down."

"Really, Mary, you might at least see that the plates are clean."

"Well, mum, Mary rejoined, 'I owns to them thumb marks, but that dried mustard was there afore I come.'"

Where She Erred.

Miss Gerty Gad called the new maid, and said tartly:

"If you don't improve, Maria, I shall have to dispense with your services!"

"But I do my best," Maria insisted. "Yesterday afternoon you insulted a friend of mine."

"Why, I never even—"

"Was that a golfing he had?"

"Yes."

House of Representatives Is Being Renovated

The interior of the house of representatives is having its first coat of paint in some years, since this is the first summer in several years that congress has not been in extra session. The renovations and repairs are being made without regard to the possibility that the house will be enlarged from its present 435 members to about 500, based on new population figures.

Mexican Border Is Little Known

No Region in All North America More Widely Misunderstood, Says Writer.

TRIP FULL OF CONTRASTS

No Section of Borderland Has Seen So Much of Adventure, Tragedy and Turbulent Activity as State of Texas.

Washington, D. C.—"No region in all North America is more frequently mentioned or more widely misunderstood, perhaps, than the Mexican border," writes Frederick Simpich, formerly American consul at Nogales, Mexico, to the National Geographic society.

"From the Gulf of Mexico up to El Paso, along the Texas frontier, the Rio Grande forms the boundary between the United States and Mexico; thence to the Pacific coast the line is marked by stone or iron monuments (save a short break at the Colorado), so set that one is supposed to be visible from another. By this plan a soldier, miner or cowboy (yes, and a smuggler, too) can always tell which side of the line he is on; or, if wholly lost and he comes suddenly on a monument, he can soon get oriented."

"Adventurous, colorful and full of contrasts as it is, the 1,800 mile trip along this crooked, historic line is rough and difficult, and has been made by few people."

"The Rio Grande part of this border has caused both Uncle Sam and Mexico much work and mental anguish. During bad floods the line is formed by the river squirms around in so astonishing and lively a manner that what is Mexican soil one day may be in Texas the next, and vice versa."

Bigness of Texas.

"Railroads cut this long border line at Brownsville, Laredo, Eagle Pass, and El Paso, Tex.; at Douglas, Naco and Nogales in Arizona, and at Calexico and Tia Juana, in California. Only four of these railroads, however, are main lines of through traffic that penetrate the interior of Mexico; these start at Laredo, Eagle Pass, El Paso and Nogales."

"You visualize the bigness of Texas when you look at the length of its side that borders on Mexico. You realize its emptiness, too, when you travel through some of its border regions, where the population is less than two per square mile."

"No section of the border has seen so much of adventure, tragedy and turbulent activity as Texas. The flags of

"Bunk" Jones continued to pace the floor, as prospective grandfathers are wont. An hour passed.

"Twins."

"Bunk" Jones did not alter his course. He still paced the floor. Another hour passed.

"A grand daughter."

And there are six howling good reasons why "Bunk" Jones, farmer near Murray, is "all smiles."

Before his wife, who is forty-two, gave birth to triplets, Mrs. Willie Jones, daughter-in-law, was sent for. An hour after arrival of the triplets Mrs. Jones presented "granddaddy" with twins.

Meantime Mrs. Asilah Parks, a daughter, had been called in to attend the two mothers. Within less than an hour, she too, had become a mother, a daughter completing the sextet born in the same house within three hours.

3 BILLIONS NOT IN BANKS

Enough to Put Nation's Liberty Bonds Back to Par Now Being Held in Stocking Bank.

Philadelphia.—The combined "Little Thread National bank" and the "Feather-Bed-Mattress bank" now hold more than \$3,000,000,000 of the country's cash.

This is the estimate of William H. Hunt, acting governor of the Philadelphia Federal Reserve bank, made of

France, Spain and Mexico have waved over it; for a time it flew its own Lone Star and also the Confederate flag.

"In Brownsville you hear more Spanish than English, because most of the 8,000 people who live there are Mexicans."

"Up the river from Brownsville lies Laredo, most important border town in south Texas, even if an old map does call this vicinity 'a wilderness filled with wild horses.'"

"Eagle Pass, on up the Rio Grande, was a favorite camping spot for the California gold hunters in '49."

"As you follow the border west, oaks, pines and underbrush decrease, aridity increases, and cacti lift their thorny heads. Border counties like Brewster, Presidio and El Paso are of amazing area—larger than some of our small eastern states. Windmills are everywhere—big 'electric fans' to keep the cattle cool; a waggish cowboy once explained to a London tenderfoot."

Largest Irrigation Reservoir.

"El Paso is the only large city from 'San Antonio' to Los Angeles, a ride of 1,500 dry, dusty miles."

"The largest reservoir anywhere is

the great Elephant Butte dam, which stores more water than the world-famous Assuan dam on the Nile. This big dam, built in the Rio Grande above El Paso at a point in New Mexico, holds enough water, we are told, 'to fill a standpipe 11 feet in diameter reaching from El Paso to the moon, or to cover Massachusetts to a depth of six inches!'"

"From the point at monument No. 1 where the boundary line crawls out of the Rio Grande (at the southeast corner of New Mexico), it strikes west into a wilderness of singularly dry and empty aspect. For 40 miles along this march the traveler must carry his own water."

"To the west lie the rough, hostile foothills of the Dog mountains; near here, in the San Luis range, the line reaches a point of 6,000 feet above the sea, marking the continental divide."

"In the San Bernardino valley the line strikes the first running water after quitting the Rio Grande—102 miles to the east. Here rises the famous Yaqul river, that long, crooked stream that meanders through the vast Mexican state of Sonora and through the turbulent Yaqui Indian zone, finally emptying into the Gulf of California below Guaymas."

"In the whole 700-mile stretch from the Rio Grande to the Pacific, this line crosses only five permanent running streams, and the average rainfall throughout its length is only eight inches."

"Save the hamlets of Columbus and Hachita, the New Mexican section of this border is almost uninhabited."

Recognize No Courts But Own

Sinn Fein Closes Courthouses to All Except Their Own Judiciary.

MAKE SERVICE COMPULSORY

Local Councils Appeal to All Irishmen of Military Age to Undergo Course of Training in Republican Army.

Dublin.—Intensity of public sentiment in Ireland against British rule is evidenced by the actions of the recently elected Sinn Fein local councils. Westmeath county council has decided that all courthouses in the county shall be closed and the government officials resident in them evicted.

The Irish volunteers have been ordered to see that no judges are allowed to enter the buildings for the purpose of holding any courts not recognized by the Dail Eireann, or republican parliament. Some councils have passed resolutions to raise contributions for the maintenance of the republican army.

Make Service Compulsory.

At Claremorris, County Mayo, the local council has adopted a resolution appealing to all Irishmen of military age to undergo a course of training in the republican army, and will not give any position in the service of the council to men who have not undergone such training. In other places the local councils have decided to cut off the water supply from the police and military barracks. At Enniscorthy, County Wexford, where this was done, the authorities promptly hit back and the council room was raided by police and soldiers.

Meetings have just been held throughout Ireland for the purpose of selecting the judges who are to preside over the Sinn Fein parish courts. Those courts have jurisdiction in all cases under \$50 in value, and it is intended that their judges shall eventually be elected by the votes of the people in whose districts they operate.

Regularly Elected Later.

Pending the organization of electoral machinery for the purpose they have been selected by a conference composed of members of the Dail Eireann for the constituency, the members of the county council, one clergyman for each denomination from each parish, the members of the urban and rural councils, one representative of each Sinn Fein club, one member of

each company of volunteers and one representative of each trades union body. The judges so selected are to act till December, when there will be a regular election by ballot of the voters.

YANKS ROUT YELLOW ROGUES

American Gunboat Pursues Chinese Brigands in Upper Reaches of Yangtze River.

Shanghai.—Brigands who have terrorized the upper reaches of the Yangtze river in recent months found a sudden check put upon their activities when American and British gunboats were dispatched into the upper river from Shanghai, according to reports.

The gunboats were sent up to Chungking after outlaws took possession of the Robert Dollar II of the Robert Dollar company at Shanghai at Wansien in Szechuen province, and were frightened away only by the timely appearance of the American gunboat Palos, which came in response to distress signals.

Messages to Shanghai said the bandits vanished into the hills on the appearance of the gunboats.

AUSTRIA ENDS GRAIN CONTROL

Socialists Are Beaten by Big Vote on Food Measure by Common Bination.

Vienna.—Austria has abolished government control of her domestic grain supply after a bitter political fight in which the advanced parties were defeated by an overwhelming vote of the combined Christian socialist-grosse Deutsche parties.

Government control, it was alleged, was a "farce."

The economic experts of the socialist wing declared the control act a reactionary measure in favor of the agrarian element and predicted that bread prices would rise because of it.

Advocates of the measure, on the other hand, insisted that in spite of laws the farmer withheld his food-stuffs from the government requisition and sold to the "left-hand" trade.

Relief for Torpid Livers and Habitual Constipation

The liver is the largest and most important organ in the body, and when the liver refuses to act, it causes constipation, biliousness, headaches, indigestion, gas, sour stomach, bad breath, dysentery, diarrhoea, pains in back and under shoulder blades and under ribs on right side. These symptoms lead to colds, influenza or other serious troubles unless corrected immediately.

An inactive liver places an extra burden on the kidneys, which overtaxes them and causes the blood to absorb and carry into the system the impurities that the liver and kidneys have failed to eliminate.

When you treat the liver alone, you treat only a third of your trouble, and that is why you have to take purgatives every few nights. Calomel or other ordinary laxatives do not go far enough. If you would treat your kidneys and blood while treating the liver, you would put your entire system in order and frequent purgatives would then be unnecessary.

Dr. W. L. Hitchcock many years ago recognized these important facts, and after much study and research, compounded what is now known as Dr. Hitchcock's Liver, Kidney and Blood Purifier for many years, being used by his patients with marked success.

It is a harmless vegetable remedy that will not make you sick, and you may eat anything you like while taking it.

Keep it in the house for ready use whenever any member of the family begins to feel "out of sorts." It will prove a household friend and a valuable remedy.
